

*NSPIRE2021 SYMPOSIUM

The annual symposium will be held at CSU-SM Thursday August 5 from 1-5 pm! Hear the personal academic journey of two Scripps Research graduate students, engage with researches at the poster session, and ask questions about the graduate school experience during the graduate student panel.

Contact: nspireinitiative@gmail.com

NSPIRE Fellow Lectures

1:00-3:05 PM

Lara Ibrahim
Department of Chemistry
"The journey to understanding the regulation of antioxidants in human cells"

Vincent van der Puyl

Department of Chemistry
"Metal-Hydride Hydrogen Atom Transfer: Methods to Access Complex Chemical Space"

Graduate Student Panel

3:15-4:15 PM

Is a STEM graduate program right for you? Find out how to navigate a scientific career path by participating in a virtual panel with graduate students from Scripps Research. Learn from their experiences and ask questions.

Student Research Posters

4:30-Onward PM

Students from the local southern Californian STEM community will be sharing their research. Get exposed to cutting edge studies, network with members of the STEM community, and learn how to get involved.
